The Journal de Rouen of France, says that "a very pretty girl, of about eighteen, applied to the Central Commissary of Police at Lille, a few days back, for the necessary permission to visit Troppmann in his prison. "What have you got to say to him?" asked the Commissary. "Sir. the matter is very simple," she replied; "he is alone, and requires care and amusement. It I went and stayed with him for the time he still has to live, I should be most attentive, and he could leave me the 4,000f, which he still possesess." The astonished magistrate endeav ored to make the girl understand the impropricty and immorality of her proposition, but she did not see the case in that light, and simply remarked, "But Sir, his money will be lost and he is so dull alone."

It is proposed to raise \$2,500 in each of ten - Southern Episcopal diverses, for the further endowment of the University at Sewanee, Tennessee. At the late meeting of the Anglican Council in England, through the influence of the Atchbishop of Canterbury, \$20,000 were raised for this institution, and Oxford sent over 5,000 books for professors and one hundred students, at \$300 a year, yielding an income of \$30,000, which makes the college self supporting. The money to be raised is to be devoted to new buildings.

Feehter, the much belauded foreign actor, made his first appearance in New York, on Monday evening last in the role of Ruy Blas, a character not very difficult, comparatively speaking, of interpretation. A well known and able New York critic, in referring to his acting on Monday night, says the impression he made was on the whole very pleasant, but signifi-cantly adds: "Mr. Fechter is heartily wel-come; but, he must do something much finer than anything he did last."

The erection of a new State to be composed of the present State of Delaware, the Eastern Shore of Maryland and the Virginia counties of Accomac and Northampton, is being discussed in the Delaware papers. The argument in tavor of the new State is that the thirteen counties, which it will comprise, now belonging to three distinct States, have a close natural connection, constituting the fertile peninsula between the Chesapeake, the Delaware river, and the Atlantic ocean.

The Auditor of the Canal Department of the State of New York James A. Bell, in his anual brated report to the Legislature of that State, urges that annals shall be kept up to the "progress of the age," by modernizing motive power, shortening time of transmission, using steam, and making tolls onform to the lowest figure-All capital suggestions,

SPECIAL NOTICES. The Living Machine.

Injure the main spring of a watch and every portion of the works becomes disordered. The burnan stomach is to the human system what that elastic piece of metal is to a chronometer. It influences the action of the other organs, and controls, to a certain extent, the whole living machine. The comparison may be carried further; for as the weakness or other imporfections of the main spring is indicated on the face of the time-piece, so also is the weakness or other disorder of the stomach betrayed by the face of the invalid. The complexion is sallow or faded, the eyes are deficient in lustre and intelligence, and there is a worn, anxious expression in the whole countenance which tell as plainly as written words could do, that the great nourishing organ whose office it is to minister to the wants of the body, and to sustain and renew all its parts, is not performing its duty. It requires renovating and regulating, and to accomplish this end Hostetter's Stomach Bitters may be truly said to be the one thing nectful. The broken main spring of a watch may be replaced by a new one, but the stomach can only be repaired and strengthened, and this is one of the objects of the famous vegetable restorative which for eighteen years has been waging a successful contest with dyspepsia in all climates. As a specific for indi-restion it stands alone. When the resources of the pharmacorola have been exhausted, without, at best, doing more than mitigating the complaint, a course of this whole-ome and palatable, yet powerful, stomachic effects a per-tect and permanent cure. In all cases of dys pepsia the liver is more or less disordered, and upon this important gland, as well as upon the stomach and bowels, the Bitters act with singular distinctness, regulating and reinvigorat ing every secretive and assimil ting organ on which bodily and mental health depend.
